

Population Estimates and Forecasts

Scenario B: HP Natural Change

Components of Population Change

High Peak

Table with columns for years 2011-2034 and rows for Births, Deaths, In-migration, Out-migration, Migration - Net Flows, and Summary of population change.

Summary of Population estimates/forecasts

Table with columns for years 2011-2035 and rows for age groups (0-4, 5-10, etc.), Total, Population impact of constraint, Households, and Labour Force.

Population Estimates and Forecasts

Scenario Ha: HP Policy On Job + 5% Red in Comm

Components of Population Change

High Peak

Table with columns for 'Year beginning July 1st' (2011-2034) and rows for Births (Male, Female, All Births, TFR, Births input), Deaths (Male, Female, All deaths, SMR: males, SMR: females, SMR: male & female, Expectation of life, Deaths input), In-migration from the UK (Male, Female, All, SMIGR: males, SMIGR: females, Migrants input), Out-migration to the UK (Male, Female, All, SMIGR: males, SMIGR: females, Migrants input), In-migration from Overseas (Male, Female, All, SMIGR: males, SMIGR: females, Migrants input), Out-migration to Overseas (Male, Female, All, SMIGR: males, SMIGR: females, Migrants input), and Migration - Net Flows (UK, Overseas).

Summary of Population estimates/forecasts

Table with columns for 'Population at mid-year' (2011-2035) and rows for age groups (0-4, 5-10, 11-15, 16-17, 18-59Female, 64Male, 60/65-74, 75-84, 85+).

Population impact of constraint

Table with columns for 'Number of persons' and rows for Labour Force (Number of Labour Force, Change over previous year, Number of supply units, Change over previous year) and Households (Number of Households, Change over previous year, Number of supply units, Change over previous year).
