

Cemeteries Service – Memorial Headstone Information Sheet 3

Erection of memorials at GLOSSOP and THORNSETT Cemeteries

Please read the following information carefully as this may help prevent unnecessary upset in future.

Grave and memorial owners have a duty of care to maintain their memorials safely. Ideally, your memorial should be checked at least every five years by a professional memorial mason and insured. The Council will also regularly test memorials for safety and inform you if work is needed. Therefore, the Council strongly recommends that you inform the Council of any change of address so that we may contact you if work is required to your memorial.

Any memorial tested and subsequently considered unsafe by the Council must be made safe (this may involve the Council laying the memorial flat if it is in imminent danger of falling). It must then, without due delay, be repaired professionally by an approved stonemason **at the owner's expense** or it may be removed from the cemetery. The Council has no obligation to maintain any memorial.

All memorials are placed in the cemeteries at the owner's risk. This means that the maintenance of the memorial is the responsibility and obligation of the memorial owner. The Council therefore strongly recommends that the memorial owner insures the memorial against all risks. Your memorial mason or the Council can give you information about memorial insurance.

Memorials on 'coffin' graves should not be placed until six months after the burial has taken place in order to allow settling of the grave (this period does not apply to ashes graves and those with a concrete plinth in the Glossop extension).

Applications for the Council's permission to erect, inscribe or replace a memorial are usually made via the firm of stonemasons acting on behalf of the grave owner. It is important that these applications accurately quote the grave number and should always be submitted prior to the manufacture of the memorial. **Erecting any memorial without permission will result in the memorial being removed from the cemetery.**

The Council's requirements relating to memorials are as follows:

1. Before any memorial is erected it is important to submit an application and the prescribed fee at least two weeks before the date of manufacture. The application must state the size, colour, material, inscription, position of dowelled joints, foundation size and type, and ground fixing method.
2. The application should include the name, address, telephone number and e-mail address of the memorial owner and the stonemason.
3. Applications must also be submitted for additional inscriptions, replacement memorials, re-erection and removal of memorials from the cemetery.
4. Applications are not required for cleaning, levelling repair or regilding.

5. Memorials must be made of natural stone and must be at the **head** of the grave only. The grave number and memorial masons name must be inscribed on the base of the headstone.
6. No new or replaced kerbing or stone edging will be permitted in any cemetery.
7. All new memorials must be erected in accordance with the NAMM Recommended Code of Working Practice.
8. Memorial headstones must be within the following sizes:

Burial and Ashes Plots			Children's Burial Plots		
Headstone	Maximum	Minimum	Headstone	Maximum	Minimum
Height**	2'9" (838mm)	-	Height	2' 0" (610mm)	-
Width	2'6" (762mm)	-	Width	1' 6" (457mm)	-
Thickness	4" (102mm)	3" (76mm)	Thickness	3" (76mm)	2" (51mm)
Base	Maximum		Base	Maximum	Minimum
Width	3'0" (914mm)	-	Width	2' 6" (762mm)	-
Depth	1'3" (381mm)	-	Depth	12" (305mm)	-
Thickness	5" (127mm)	3" (76mm)	Thickness	4" (102mm)	2" (51mm)
Flat tablet or desk	Maximum		Ashes plots and children's plots are only 1m wide x 1.25m front to back. No foundation slab wider than 38" (966mm) is permitted on ashes plots or 36" (914mm) on children's plots.		
Length	2' 0" (610mm)				
Width	2' 0" (610mm)				
Height (rear)	1' 0" (305mm)				
Height (front)	3" (76mm)				
**The overall height (inc. foundation) of any memorial measured from ground level must not exceed 3' 2" for burial and ashes plots or 2' 4" for children's burial plots.					

Glass and ceramic (pottery) pots and ornaments, all kerbs, fencing, railings or edgings and gravel are not permitted and should never be placed on your grave as they will be removed without notice.

Trees, shrubs and plants (other than spring flowering bulbs in a six inch strip at the head of the grave only) should not be planted on any grave. The Council will remove these plants without notice if they prevent the lawned grave surface being maintained safely.

If the grave is re-opened for a future burial the memorial may need to be removed for safety reasons. We will inform the funeral director of this fact and will expect that the memorial be removed at least two days before the burial takes place. It must then be either removed from the grave area or safely reinstalled as soon as possible at the grave / memorial owner's expense after the burial has taken place.

- Copies of our cemetery regulations are kept at the Cemeteries Service at Buxton Town Hall and Glossop Municipal Buildings.
- If you require further information the Cemeteries Service may be contacted at High Peak Borough Council, Town Hall, Market Place, Buxton, Derbyshire, SK17 6EL.
