1 Introduction and background

High Peak Borough Council Infrastructure Funding Statement 2021/2022

1.1 Introduction

1.2 The Infrastructure Funding Statement (IFS) sets out annual income and expenditure relating to developer contributions in High Peak secured through "S106 agreements". As a result of recent changes to government legislation local authorities are now required to publish an Infrastructure Funding Statement which will be produced on an annual basis. Using published developer contribution data the IFS will detail infrastructure projects in order to increase transparent for communities by reporting what has been received and spent by the Council. Local planning authorities that have received developer contributions must publish an infrastructure funding statement summarising developer contributions data.

1.3 The aim of the Infrastructure Funding Statement is to give policy makers a better insight into how developer contributions are supporting new development. Developer contributions can include Section 106 planning obligations, Community Infrastructure Levy, section 278 agreements and any agreements that either secure funding towards new development. However, the Borough Council does not currently have a Community Infrastructure Levy in place. Section 278 agreements are secured for highways improvements and as such are reported on separately by Derbyshire County Council.

2 Developer Contributions

2.1 Table 1 above shows the money provided under any planning obligations throughout the reporting period from April 2022 to March 2023. Much of the money provided is to be calculated using the agreed formula set out in the Section 106 agreement, rather than a set sum of money. Most of the contributions are to go towards outdoor space with the inclusion of a management company to maintain open space on site at Land South of Dinting Road, in accordance with an approved Public Open Space Scheme. Education contributions will be reported on by Derbyshire County Council.
